INDEX TO VOLUME I.

Abdominal operations, book review, 471; Section, conservation of the parietal motor nerves in, 152; Sections, some considerations on the after-treatment of, 359; Viscera, upper, treatment of acute perforation of, 493.

Abscess, Subphrenic, in children, 282.

Actinomycosis, abs, 102; The use of copper sulphate in the treatment of, 451.

AHLFELD, F., Has the preliminary vaginal douche an influence on the morbidity of the lying-in period? abs., 292; Transposition of the parts of the body by amniotic bands, abs., 565.

Air, The injection of, into the circulatory system of animals, 533.

ALLEN, DUDLEY P., A simple aseptic surgical technique, 187; Supernumerary thyroid at base of tongue, 213; 183.

American Association of Obstetricians and Gynecologists, transactions of eighteenth annual meeting, 358–369; Gynecological Society, 99; Surgical Association, transactions of the twenty-sixth annual meeting, 174.

Amniotic bands, Transposition of parts of the body by, abs., 565; Epithelium, historical investigation concerning the secretory activity of, abs., 384.

AMOS, J., Pathology of thrombosis in the superior mesenteric vein, abs., 378.

Anæsthesia, Scopolamine-morphine, 354; Scopolamine-morphine, ed., 539; The vapor method of, abs., 558.

Anæsthetics, Acid intoxication and late poisonous effects of, hepatic toxemia, acute fatty degeneration of the liver following chloroform and ether anæsthesia, abs., 370.

ANDREWS, E. WYLLYS, Colohepatopexy, or colon-substitution, a new operation for perigastric adhesions after gallstone operations, abs., 370; A new method of arthrotomy for old dislocations of the shoulder, based on experience in the radical breast removal, 385; A new operation for the cure of the tabetic ulcer, 452, 547.

Ankle, Sprained, 444.

Ankylosis, abs., 196.

Appendicitis, 445; and pregnancy, 27; as a factor in the diagnosis and treatment of abdominal and pelvic tumors; also complicating pregnancy, 367; Complicating pregnancy, 53; In relation to pelvic disease and pregnancy, 80; Shall the profession or the laity be responsible for the death-rate in? 445; The earliest and complete removal of the appendix (from the clinic of Joseph Price), 216; The formation of diverticula in, abs., 286.

Appendix, Inflammatory conditions of, accidentally brought to light in pelvic operations, 79; Relation to pelvic disease and pregnancy, 78; The earliest and complete removal of, in appendicitis, 216.

Arterio-sclerosis of the uterus as a factor in uterine hemorrhage, 73.

Atlas and text-book of topographic and applied anatomy, by Schultze-Stewart, review, 206.

AUSTIN, M. A., Perforating ulcers of the duodenum, 446.

BACON, CHARLES S., Immediate diagnosis and treatment of lacerations of the vagina and pelvic floor and perineum, 191; Non-operative treatment of eclampsia, abs., 109; Pulmonary tuberculosis as an obstetrical complication, abs., 563; 109; 194.

BAISCH, VON KARL, The value of gland removal in operations upon carcinoma of the uterus, abs., 200.

BALDWIN, JAMES F., 82; 359.

BARNETT, CHARLES E., When prostatotomy instead of prostatectomy is indicated, 430.

BARRETT, CHANNING W., The operative treatment of retrodisplacements, with a new operation; intramural transplantation of the round ligaments, 417.

BARTLETT, WILLARD, 456.

BEER, EDWIN, Concerning the causes of gall-stones, abs., 373.

BELFIELD, WILLIAM T., Suprapubic versus perineal prostatectomy, 544, 548.

BESLEY, FREDERIC A., Some conclusions relative to prognosis and treatment of sarcomata of extremities, with report of five cases, 412.

BEVAN, ARTHUR D., Acid intoxication and late poisonous effects of anæsthetics, hepatic toxemia, acute fatty degeneration of the liver following chloroform and ether anæsthesia, abs., 370; Actinomycosis, abs., 102; Use of copper sulphate in the treatment of actinomycosis, 451; 102; 450.

BILLINGS, FRANK, 449.

BLACK, CARL E., Surgical dressings, 435.

Bladder, urinary, Diagnosis and treatment of some surgical diseases of, 336; Irritation of the, 440.

BLAIR, VILRAY PAPIN, Conservation of the parietal motor nerves in abdominal section, 152.

BLAKE, JOHN BAPST, Gastroenterostomy and pyloroplasty: an experimental study by means of the Roentgen rays, abs., 101.

Blastomycosis, 450.

BLOODGOOD, JOSEPH C., Cysts of the thyroid gland, 113; abs., 556; 557.

Blood-poisoning, General, emanating from the nose and pharynx, 442.

Blood-vessels, cornual, Unusual dilatation of, with rupture into the uterine cavity, etc., 364.

BOISE, EGUENE, Post-operative vomiting, 23; 67; 74.

BOLDT, HERMANN J., 67; 73, 82; 87.

BONIFIELD, CHARLES L., 359.

BOSSI, A study of rapid dilatation of the os uteri, abs., 108.

BOVÉE, J. WESLEY, My experience in the treatment of retrodisplacements of the uterus by operations on the round, uterosacral, and uterovesical ligaments; report of 129 cases, 510; 71; 76.

BRADFORD, ED. H., Treatise on orthopedic surgery, Review of, 296.

Brain tumors, inaccessible, The establishment of cerebral hernia as a decompressive measure for, etc., 297.

Breast, Papillary cystadenoma of, 361.

Bromine, The antiseptic action of, with descriptions and illustration of cases, 530.

BROWN, GEORGE S., Prolonged lavage a preventive of ether-vomiting after operation, 169.

BROWN, JOHN YOUNG, Primary bowel resection versus artificial anus in the treatment of strangulated hernia, 364; Surgical management of injuries of peritoneal viscera resulting from violence applied to the abdominal wall, 443; 359; 435, 436.

BRUNN, MAX V., Upon the formation of diverticula in appendicitis, abs., 286.

BUHLIG, W. H., The surgeon's need for a knowledge of neurology, 357.

146332

BURRAGE, W. L., A case of chorioepithelioma following hydatidiform mole, 410.
BURRELL, H. L., A summary of cases of fracture of the spine treated in the Boston City Hospital, 179.
BYFORD, H. T., 86; 98.
BYRNE operation and its application in the radical treatment of cancer of the cervix, 362.
Cæsarean section, 368; Sections, A group of cases of repeated, abs., 204; The indications and technic of, abs., 294; On the dying, abs., 204; Report of a case of, performed under relative indications, 408; For placenta previa, an improper procedure, abs., 292.
Calcifications, Concerning subcutaneous and periarticular, abs., 460.
Cancer, Final results in the X-ray treatment of, including sarcoma, abs., 284; of the cervix uteri, present status of the radical operation for, 280; of the Rectum, 443; of the uterine cervix, its classification and extension, abs., 561.
CANNON, WALTER B., Gastroenterostomy and pyloroplasty: an experimental study by means of the Roentgen rays, abs., 101.
Carcinoma, of the mammary gland, The permanence of the cure of, abs., 100; of the rectum in pregnancy, abs., 383; of uterus, para-vaginal or abdominal operations in, 84; of the uterus, radical abdominal operation versus vaginal operation, 83; of the uterus, value of gland- removal in operations upon, abs., 200.
Cargile membrane, An experimental and histological study, abs., 198.
CARMALT, W. H., 185; 186.
CAROTHERS, ROBERT, Sprained ankle, 444; 441.
CARREL, ALEXIS, 458.
CARSON, N. B., 177; 182.
CARSTENS, J. HENRY, Abdominal hysterectomy for multiple fibroids complicated by pregnancy, 363; Pyloroplasty with the McGraw ligature, 444.
Cartilage plates from the scapula of the calf for liver and spleen suture, 529.
CATES, BENJAMIN BRABSON, A safe, simple, and sure cure for ganglion, 170.
Catgut, dry iodine, abs., 372.
Cerebral hernia, The establishment of, as a decompressive measure for inaccessible brain-tumors, with the description of intermuscular methods of making the bone defect in temporal and occipital regions, 297.
Cervix uteri, The indications for and methods of artificial dilatation of, 394; The present status of the radical operation for cancer of the, 280; Uterine, cancer of, its classification and extension, abs., 561.
CHASE, WALTER B., Some considerations on the after-treatment of abdominal sections, 359.
Chest-wall, Excision of portions of, for malignant tumors, 177; Resection of, for malignant growths, abs., 285.
Chicago Medical Society, Transactions, 544.
Cholecystitis in the puerperium, abs., 205.
Chorioepithlelioma, A case of, following hydatidiform mole, 410.
Circulatory system of animals, The injection of air into, 533.
CLAIRMONT. VON P., Results of the treatment of diffuse purulent peritonitis, abs., 195.
CLARKE, AUGUSTUS P., Observations on the treatment of face-presentations, 368.
CLEVELAND, CLEMENT, 68; 81; 73.
COE, HENRY C., Appendicitis complicating pregnancy, 53; 80; Renal insufficiency, 91.
COLEY, WILLIAM B., Final results in the X-ray treatment of cancer, including sarcoma, abs., 284.
Colohepatopexy, or colon-substitution: a new operation for perigastric adhesions after gall-stone operations, abs., 370.
Common and hepatic duct stones, 158.
CRAGIN EDWIN B., 94; 97.
CRAIG, ALBERT B., An experimental and histological study of Cargile membrane, abs., 198.
CRAIG, DANIEL H., 75.
Cranium, Pneumatocele of, abs., 101.
CUBBINS, W. R., The surgeon and the pathologist, editorial, 171.
CULBERTSON, CAREY The indications for and methods of artificial dilatation of the cervix uteri, translation, 394.
CULLEN, THOMAS S., Vaginal cysts, abs., 560.
CUMSTON, CHARLES G., Indications for hysterectomy in puerperal septicemia, 363; The indications for operation in pyelitis and suppurating nephritis, editorial, 172; The question of amputation in diabetic gangrene, 145; Subphrenic abscess in children, 282.
Curettage in septic cases, 435.
CURRIER, ANDREW F., 68; 75; 81; 87.
CUSHING, HARVEY, The establishment of cerebral hernia as a decompressive measure for inaccessible brain tumors; with the description, etc., 297.
Cystoscopy, editorial, 540.
Cysts, Dermoid, of intestine and mesentery, 319; of the mesentery, 368; Non-parasitic, of the spleen, 178; of the thyroid gland, 113; Vaginal, abs., 560.
DAUBER, H., The indications and technic of Cæsarean section, abs., 294.
DAVENPORT, FRANCIS H., 89.
DAVIS, B. B., Management of uterine fibroids, 276.
DAVIS, EDWARD P., Sudden death during or immediately after termination of pregnancy or operation on the pelvic organs in women; 77; 83; 93;
DAVIS, CHARLES, 553.
Death, Sudden, immediately after termination of pregnancy or operation, etc., 29.
DEAVER, JOHN B., Diagnosis, 367.
Diabetic gangrene, The question of amputation in, 145.
Diagnosis of diseases of women, The, by Palmer Findley, review, 207.
Diagnosis, 367.
Diet in health and disease, book review, 296.
Dilatation, artificial, of the cervix uteri, The indications for and methods of, part I., 394.
Dislocation, Congenital posterior, of the humerus excision in, 179; old, of the shoulder, A new method of arthrotomy for, based on experience in the radical breast removal, 385.
Diverticula in appendicitis, Upon the formation of, abs., 286.
DOHERTY, DAVID J., 552.
Drainage, abdominal, The indications and contra-indications for, after laparotomy, abs., 375; Peritoneal, an experimental study of the local effects of, 473.
Dressings, Surgical, 435.
DUBS, R. S., Fracture of the femur treated by the ambulatory method, 549.
Ductless glands and the status lymphaticus, 140.
DUDLEY, A. PALMER, 67; 74; 87.
DUDLEY, E. C., The expansion of gynecology, and a suggestion for the surgical treatment of incontinence of urine in women, 65; 70; 111.
Duodenum, Construction of the, below the entrance of the common duct, and its relation to disease, 190; Perforating ulcers of, 446.
EASTMAN, JOSEPH R., Three cases of extraperitoneal rupture of the bladder complicating fracture of the pelvis, with recovery, 445; 441; 439.

Echinococcus disease of the heart, with report of a case, 328.
Eclampsia and its treatment, 91; Treatment of, 92; Non-operative treatment of, abs., 109; Gangrene following, abs., 203; Clinical notes of a conservative series of cases of, abs., 381.
CLIFTON, EDGAR J., Clinical types of pregnancy toxemia, 45; 91.
